STAYING

SAFE

at TAFE NSW Northern Sydney

TAFE NSW

SafeZone

A free safety app for all students and staff

Sends **emergency notifications** to your phone when you need to act on an alert.

Lets you **get help quickly** when and where you need it.

Touch a button for **first aid** or **general help**.

When you're at a TAFE NSW location, security will get your **details and exact position within seconds and respond to your needs**. If you are not at a TAFE NSW location, your call will go to 000 emergency services.

SafeZone does not share your location unless you call for help.
