Connecting to NSI Wireless Network

Please connect to ‘NSI BYOD’ Wireless Network

Internet Explorer

1. When you open your Browser, you will now be prompted for your DEC username and password. If not ensure that your Internet Explorer has been set to automatically detect settings. (Tools > Internet Options > Connections > LAN settings)

Firefox

1. You need to configure Firefox to connect to Internet. Open Firefox and go to Options > Options. Select ‘Advanced’, select ‘Network’. Click the ‘Settings’ button. This opens the ‘Connection Settings’ dialogue box. Select ‘Manual proxy configuration’ and set the HTTP Proxy to ‘proxy.det.nsw.edu.au’ and the Port to 8080.

2. When you open your Browser, you will now be prompted for your DEC username and password.
