CONSTRUCTION, PLUMBING, ELECTROTECHNOLOGY, ENGINEERING, AUTOMOTIVE, MARITIME, BOAT AND SHIP

HORNSBY MEADOWBANK NORTHERN BEACHES ST LEONARDS
I always thought I would be working for someone else. That was, until I enrolled at the Northern Sydney Institute. Now, I’m the boss.

Ben always liked the idea of being pushed; from competing as a national bodyboard champion at age 16 to changing sports and becoming an international karate champion. Setting goals was always a priority for him, a skill he now applies to his own plumbing company.

**I STUDIED AND GRADUATED FROM**
Certificate III in Plumbing and Certificate IV in Plumbing and Services (Operations Stream) at St Leonards Campus.

**I WORK AT**
Hansen’s Plumbing (Owner)

**MY EXPERIENCE**
“When I started my Certificate III and apprenticeship at the Northern Sydney Institute it was a class full of people that had goals and ambitions to run their own company. I knew straightaway that I wanted to start my own business too.”

**BEING MY OWN BOSS**
“The best part of being your own boss would be setting goals, achieving them and really just taking yourself and your career as far as you can.”

**MY FREEDOM**
“I like the fact of driving around in my own van and getting to work with my brother close to the coast and home. If I won the lotto next week I would still be a plumber.”

**BEN HANSEN**
WE KNOW
CONSTRUCTION, PLUMBING, ELECTROTECHNOLOGY, ENGINEERING, AUTOMOTIVE, MARITIME, BOAT AND SHIP

Have you always enjoyed working with your hands? Have you pulled something apart just for the fun of putting it back together? The need for qualified, hands-on workers in Australia and globally continues to grow and evolve. From the automotive industry to maritime, construction to engineering, there are a range of industries offering rewarding careers for skilled workers.

As an automotive technician, builder, plumber, electrician, engineer or boat builder, you’ll enjoy a career that you can take just about anywhere. Learn from industry insiders to develop or expand your abilities so you can start building your new career today.

CONSTRUCTION, PLUMBING, ELECTROTECHNOLOGY, ENGINEERING, AUTOMOTIVE, MARITIME, BOAT AND SHIP DISCOVER GUIDE 2016

PARTNERSHIPS
At the Northern Sydney Institute we have built relationships with industry so that we can offer you that connection.

Our courses are designed in partnership with companies and organisations. As a result, you’ll be ready to enter the workforce or take the next step in your career knowing you’re prepared to tackle today’s challenges.

Learning is continuous. Our partnerships and industry connections endorse our courses so you know we are on top of business. Gain current skills while learning from industry leaders.

RPL
WHAT IS IT?
RPL stands for Recognition of Prior Learning and is simply an assessment tool.

We use RPL to look at your skills, job history and any training you may have done and align them to a qualification. We can also use RPL to update an older qualification. All this without stepping into a classroom!

Let us help you get TAFE qualified today.

Go to nsi.edu.au/rpl or call 131 674 for more information.

THE BENEFITS OF RPL

QUICK
SIMPLE
COST EFFECTIVE
RELEVANT
RECOGNISED QUALIFICATIONS
JOB OPPORTUNITIES

FACTS SAY

TRANSFORMING
The automotive industry is set to transform over the next five years – from parts and car manufacturing to specialist repairs and greener solutions.

GROWTH
Construction spending in all areas of trades in NSW is projected to increase to around $60 billion by 2024.

JOBS
More apprentices will be hired in 2016 than have been hired in the last seven years.
Let us help you unlock your potential.
Go to nsi.edu.au or call 131 674
You don’t always need to complete a lower level certificate in order to gain entry to a higher one.

A learning pathway is a group of qualifications that build on specific skills, knowledge and experience to help you forge a successful career in industry. Depending on your previous work experience and the entry requirements of each qualification, you can jump in and study at the right level for you at any time.

Our pathways also extend onto university.

If you have studied a relevant diploma, you may be eligible to receive between 6 and 18 months of credit towards a university degree through our university partnerships.

WHERE YOU CAN STUDY

- HIGH SCHOOL
- TVET (TAFE-delivered Vocational Education and Training) and Bradfield Senior College
- THE NORTHERN SYDNEY INSTITUTE
- UNIVERSITY

STAGEMENT OF ATTAINMENT (NSI+)

Get what you need, when you need it.

We offer specialist skills sets and units out of the Australian Qualification Framework (AQF) as separate, shorter courses.

CERTIFICATE I
This qualification is suitable if you need basic skills and preparation for further study.

CERTIFICATE II
You will learn the basic knowledge and skills to undertake initial work.

CERTIFICATE III
Starting point for apprenticeships and traineeships.
You will learn a broad range of specific skills to gain a career in your selected industry.

CERTIFICATE IV
A minimum requirement in some industries.
You will learn the practical and theoretical knowledge required to specialise in a skill.

DIPLOMA
You will be prepared for a career that requires a range of complex and/or technical skills.
CONSTRUCTION AND ENGINEERING PATHWAYS

Looking for a career where no single day is the same as the last? By studying Construction and Engineering, you'll gain the real-world skills and practical knowledge to work in a sector that's always in demand. Learn from trusted industry experts so you can start or advance your career.

ADVANCED DIPLOMA
You will apply the knowledge and communication skills learnt to complete activities and provide solutions to complex problems.

BACHELOR DEGREE
Our degree programs prepare you for professional practice, giving both the foundation knowledge and advanced technical skills to excel in today's work environment.

MASTER'S DEGREE
Through complex research, you will demonstrate the knowledge and skills to be an expert practitioner in your selected disciplines.

ASSOCIATE DEGREE
An associate degree is ideal if you want a practical higher education qualification. Upon graduating, you will be prepared for the workforce as a highly-skilled or paraprofessional employee.

GRADUATE CERTIFICATE AND DIPLOMA
Our postgraduate programs will help you build on your sound knowledge and practical skills with the possibility to extend your body of knowledge as a pathway for research.

Go to nsi.edu.au/pathways or call 131 674
AUTOMOTIVE

The automotive industry is evolving - and you can be at the centre of it. As innovations and greener technologies redefine the sector, gain the skills necessary to contribute to the future of the industry. There are 18 million cars and motorbikes on the road in Australia. Plus, V8 supercar enthusiasts and superbike fans fuel a thriving recreational side of the automotive industry. Whether you want to learn about servicing and diagnostics, work in an automotive workshop or in an elite pit crew, you’ll learn the skills needed to be competitive. With fully equipped workshops at our Northern Beaches and Hornsby Campuses, our hands-on programs give you an edge in the job market.

Building Design

When you become a building designer you are designing our architectural future. Be responsible for energy efficiency, comfort, value and beautiful constructions.

Learn to take a client brief and design spaces that are practical, cost-effective and considerate of your client’s budget and lifestyle.

As a building designer you can specialise in residential projects, including new buildings, heritage restorations and additions or renovations; or you can undertake commercial and industrial projects, such as factories, motels, offices, restaurants, retail or service outlets and warehouses.

This qualification applies to building designers who undertake building design projects covered by the Building Code of Australia (BCA), except Construction Type A buildings.
PLUMBING

Open up a world of opportunities in domestic, commercial and industrial sectors as a qualified plumber. If you’re just starting out or aiming to upgrade your current skills, our courses give you relevant, practical experience and connect you with industry experts.

MARITIME

The maritime industry may be full of folklore, but it’s also among the most cutting-edge sectors today. Prepare yourself for an exciting career that’s challenging and rewarding. You’ll engage in lifelike learning experiences at our Northern Beaches Campus, where our facilities include a real-sized, full mission bridge simulator. The simulator offers a range of vessels from small charter boats to large passenger ships which can be made to operate in changeable weather conditions from a collection of harbours — it’s the closest thing to actually being at sea! Plus, you’ll gain more situational experience using fully operational GMDSS radio equipment. Get ready to set sail.

MARITIME

- Maritime Operations (Master up to 35 metres) Certificate IV MAR40613

- Maritime Operations (Marine Engine Driving – Grade 2) Certificate III MAR30813
- Marine Operations (Coxswain Grade 1) Certificate II MAR20313
- Maritime Operations (Marine Engine Driving – Grade 3) Certificate II MAAR20413
- Maritime Operations (General Purpose Hand Near Coastal) Certificate I MAR10313

CAREERS

Deck Hand, Coxswain, Master Class 5, Grade 2 Marine Engine Driver, Maritime Industry Worker.

TAFE PLUS STATEMENTS

- Electronic Chart Display and Info Systems (ECDIS) 27227
- Security Awareness for Seafarers 11272
- STCW95 Sea Safety (AMSA accredited sea safety training courses) 19814
- Transmit and Receive Information by GMDSS 25138

KEY

- Available as a traineeship
- Available as an apprenticeship

FACT

The Australian marine industry is a major contributor to the economy, with a GVP of $8 billion a year and direct employment of around 22,000 people. Exports in 2009-10 were $422 million, and international marine tourism and recreational activities were worth $1.8 billion. (industry.gov.au)

Sea Safety

If you want to work as a crew member on seagoing vessels trading interstate or in international waters you need the STCW95 Sea Safety Statement of Attainment.

Approved by the Australian Maritime Safety Authority (AMSA), you will study theory, jumping in a pool from three metres, righting a life raft, working as a team to control and fight fires, donning immersion suits and learning how to preserve life at sea.

When you finish you will be able to identify hazardous situations and take appropriate action to ensure the safety of your passengers and crew.
BOAT AND SHIP

Looking for a challenging, hands-on career that stimulates your creative and problem solving sides? Learn the art and craft of boat and ship building at our Meadowbank Campus. You’ll have the opportunity to gain practical experience in new composite technology, building and repairing boats in a range of materials including metal, wood and fibreglass. Enjoy state-of-the-art facilities, including a spray painting booth, mixing booth, precision machinery and dust extraction system. Our boat building program also facilitates apprenticeship and traineeship programs, TVET, short courses, certificate courses and customised training for industry.

BOAT AND SHIP

- Marine Craft Construction Certificate III [A] MEM30705
- Boating Services Certificate II [T] MEM20305

CAREERS
Marina Yard Hand, Boating Industry Worker, Boat Builder, Boat Repairer.

KEY
